## GENERAL NOTES

1. The penthouse floor as a doll's house, its walls cut 1.20 m above the floor and seen from the south-west, which is the corner A-430 uses.

2. Not a render, and not redrawn. The walls come back from the same probe that validates the plans, so this is A-104 in three dimensions and cannot be a different building.

3. A window leaves the wall under it standing to its sill; a door leaves a gap to the floor. Both come from the opening heights scheduled on ARC-500.

4. Faces are painted back to front rather than depth-sorted, so a detail may overlap where two surfaces nearly touch. The plan governs.

5. For looking at. Nothing is dimensioned here and nothing should be measured off it.
