GENERAL NOTES

1. Final draft — layout agreed. The floor you receive people on: the family living is upstairs where the balconies are, so this one takes arrival, eating and a guest suite for anyone who cannot manage the stair.

2. Hall, dining and kitchen are one open sequence. The spine is cased open to both at 2.60 and 1.60 m, and the kitchen serves the dining through a 2.50 m opening rather than a door. Only the guest suite and the two service rooms are closed.

3. The reception hall is the whole west strip at 43.1 m², with the stair standing in it. It turns the corner behind the stair and runs on to the north wall, so the guest bedroom opens off the hall and there is no circulation room anywhere on the floor.

4. Guest WC, laundry and store are one block against the west wall, the only part of this floor that is walled off. East and north carry ordinary windows, the west louvred ventilation only.

5. The front door is in the hall's south wall, under the cantilever, which projects about 1.75 m there — so the entrance is covered without a porch being added to the elevation. Three risers up from the forecourt at −0.50.

6. Bedrooms are numbered 1 to 11 through the house, south to north and west before east on each floor; the ground floor's room is the guest bedroom and carries no number.

7. The A-300 enlargements are withdrawn at P22: they show the apartment building, not this one.
