GENERAL NOTES

1. Final draft — layout agreed. The living floor: a living area and bedrooms 1 to 3. The living area is 32.3 m² with the stair standing in it and the pantry open along the spine, opening through a sliding door onto the cantilever.

2. Bedrooms are numbered 1 to 11 through the house, south to north and west before east on each floor; the ground floor's room is the guest bedroom and carries no number.

3. Bedroom 1 is the master at 19.6 m²: its north wall sits 1.30 m further north than the suite below it, and the shared bath gives up the same depth at 5.4 m².

4. The pantry is a counter against the solid stretch of spine, not the walled room the third floor has. The lobby has no wall either: the spine is opened 3.69 m between the columns, a downstand beam rather than a wall.

5. The west strip is otherwise the third floor's and the east strip the second's, so the wet rooms stack and the stair lines through. East and north carry ordinary windows, the west louvred ventilation only. The hall to the north bedrooms stops at its last door; the dead end beyond goes to bedroom 2, 16.4 m².

6. The cantilever runs on all three upper floors and the penthouse — the same serpentine, 1.95 m deep at each end drawing in to 1.35 m at the waist, 15.7 m² — with sliding doors from the living area and bedroom 1.
