GENERAL NOTES

1. Block A is given over entirely to an open-air roof terrace at this level, apart from the stair head and the light court void.

2. Timber pergolas are set out on a 550 mm rafter pitch over the lounge and the outdoor table; both are shown dashed as they sit above the cut plane.

3. The studio suite is self-contained, with its own shower room and kitchenette, and is entered from the stair head without crossing the family floor below.

4. The studio cross ventilates between the light court on the west and two east windows; the shower room has an openable east window in place of mechanical extract. East boundary openings are subject to local fire separation and rights of light rules; confirm before construction.

5. Roof falls 1:60 to rainwater outlets at the parapet; waterproofing turned up 150 mm minimum behind the terrace finish.
