GENERAL NOTES

1. Site boundaries and the 23.00 × 5.00 m garden corridor are taken from the client's survey sketch. All boundary dimensions to be confirmed by measured survey before any work starts on site.

2. Blocks A and B sit hard against the north, east and west boundaries. The south elevation onto the garden is the only open facade, so a 2.65 × 2.48 m light court is cut through all three storeys to daylight the centre of the plan.

3. The ground floor sits 0.50 m above the garden, reached by three risers at 167 mm at the entrance and at the patio doors. Surface water to a soakaway within the planted border.

4. No part of the new work oversails or undermines the adjoining plots; party wall notices to be served on the north, east and west owners before excavation.
